FLOOR PLAN PACKAGES

While photos capture the atmosphere of a home, floor plans reveal how the space truly works. They allow potential buyers to visualize room sizes, flow between areas, and the overall structure of the property before scheduling a visit.

However, creating accurate and visually appealing floor plans requires time, precision, and the right tools.

At Imagtor, we transform your sketches, photos, or measurements into clean, professional floor plans designed for modern property listings. Our team ensures every layout is clear, accurate, and easy to understand, helping real estate agents and photographers present properties with greater confidence and clarity.

With Imagtor Floor Plan Services, you can enhance your listings with visuals that help buyers quickly grasp the full potential of a space.

HOW WE PRICE OUR SERVICES

Individual Unit Billing

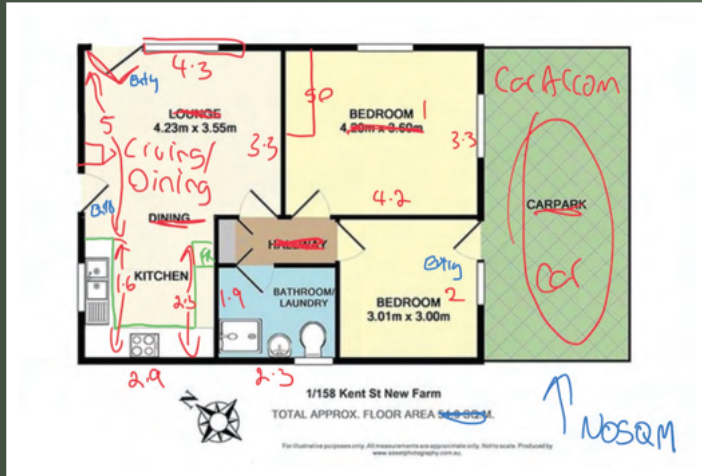

Each level of an apartment, townhouse, or residential unit (with an internal area under 300m²) is processed as an independent Floor Plan.

Transparent Area Calculation

Our 300m² threshold focuses strictly on internal living space. External areas - such as Garages, Sheds, Decks, Alfresco areas, and Verandahs - are excluded from the total square footage calculation.

Tailored Requests

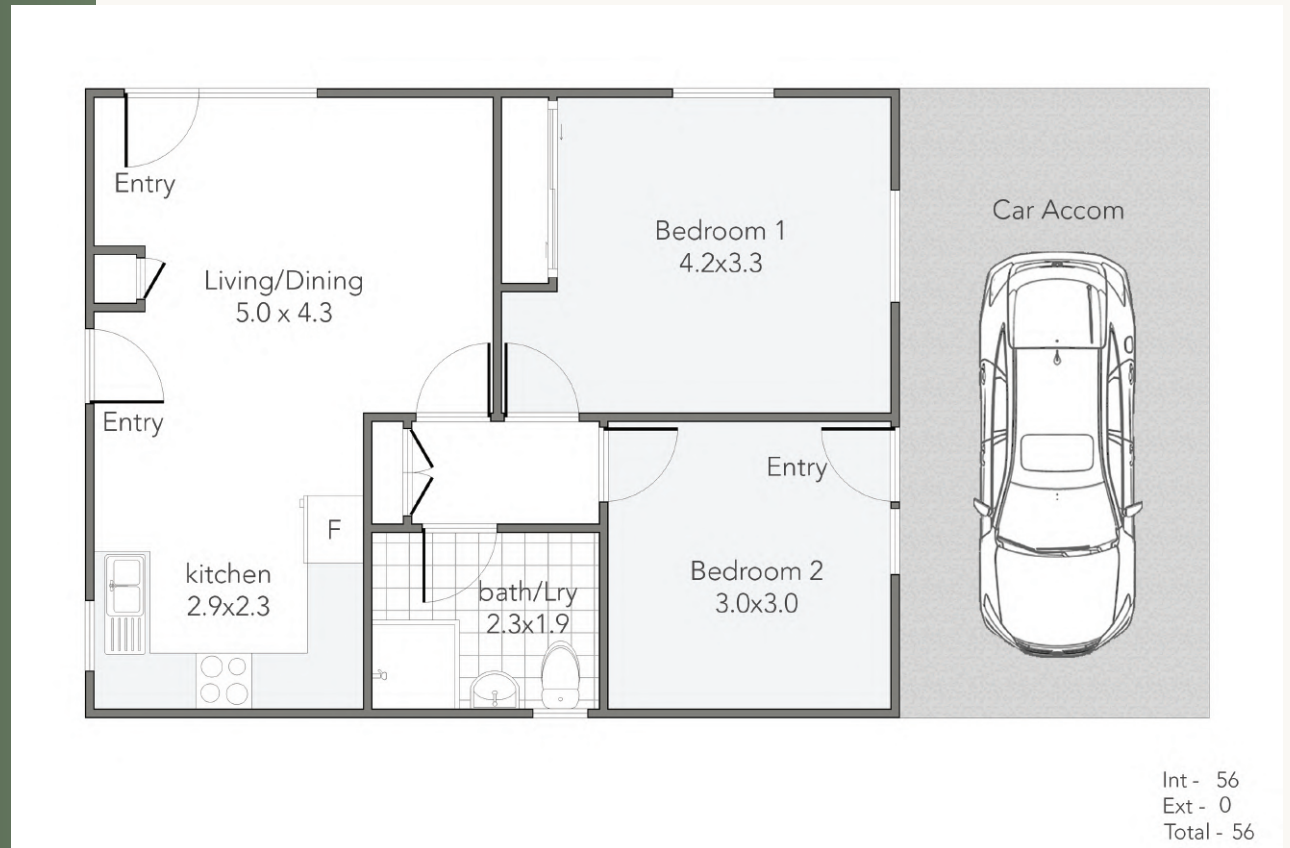

Any bespoke or additional requests outside our standard scope may incur an extra fee. Imagtor provides clear, upfront pricing for approval before any specialized work begins.
